

APPENDIX B

# Software Problem Report for the TMS320C3x/4x Optimized Math Library

---

## B.1 Software Problem Report Form

---

If any problems are encountered in the use or documentation of this product please call, fax or E-mail us a description of the problem. The form on the following page is provided for your convenience. Please provide as much detail as you deem necessary to gain insight into the problem. For instance, tell us what versions and combinations of tools you are using, along with the specifics of what symptoms appear when a routine does not appear to work. Snippets of C-code are especially helpful when debugging.
